# Applicable for any segment

## Municipalities, cities, public governments

Thanks to us, you can communicate with your citizens quickly, easily and online. Promote local businesses, inform tourists about nearby attractions and much more.

## Gyms and fitness centers

Use our equipment to motivate your clients. A virtual trainer, a motivational video for runners or a virtual bike path will take the experience of visiting your premises to a new level.

## Transportation hubs

Information on arrivals and departures, current information on the traffic situation or a simple and clear map of the terminal. All of these are services that we already provide today at busy traffic locations and thus make life easier for thousands of passengers.

# Applicable for any segment

## SHOPPING CENTERS

Are you opening a new store or holding an interesting competition? Let everyone who walks through the doors of your mall know about it. With a device from us, it's a piece of cake.

## HOSPITALS

Let the public know about the partners who contribute to the running of your facility, or just make it easier for your visitors to find their way around. With us, you can do not only that, but also a lot of other things.

## HOTELS AND OFFICE COMPLEXES

We will help you with better organization of accommodation for your guests, or simplify communication with your employees. Our screens are already used for this today.
